TECHNICAL SKILLS

Languages: Java, JavaScript, Python, PHP, SQL, HTML5, CSS
Frameworks & Libraries: Spring Boot, React.js, Express.js, Laravel, Flutter
Cloud & DevOps: AWS (Lambda, RDS, S3), Serverless Framework
Tools & Platforms: Git, Postman, JWT, Jira, Slack, Linux, PostgreSQL, Oracle
Practices: RESTful API Design, Agile/Scrum, Unit Testing, Application Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Software Developer | *Matrix Island Insights - Contract* Dec 2024 – February 2026

- Architected and executed a full legacy database migration to a modernized Java/PostgreSQL application, preserving data integrity across 300,000+ records.
- Validated migrated data and newly deployed services through end-to-end testing, achieving zero critical defects at launch.
- Created tailored software services using Laravel, Flutter and PostgreSQL to meet all functional and performance targets.
- Partnered with stakeholders to map existing workflows, identify bottlenecks, and deliver targeted improvements to system efficiency.

Full Stack Web Developer | *Shift Left Ltd. - Full-time* Dec 2021 – Dec 2024

- Engineered RESTful APIs using Java 8, Spring Boot, Oracle, and PostgreSQL, enabling full CRUD access across all exposed resources.
- Built responsive front-end interfaces with HTML5, CSS, JavaScript, and React.js, supporting 8,000+ concurrent users across multiple web applications.
- Eliminated 30+ bugs and reduced technical debt by refactoring frontend and backend codebases, cutting average bug resolution time by 20%.
- Validated applications against functional and non-functional requirements throughout the development lifecycle, maintaining a 98% sprint delivery rate.

Backend Developer | *ZRise - Part-time Contract* Sep 2023 – Dec 2023

- Architected a backend system end-to-end including API design, data modeling, and cloud deployment, using Express.js, PostgreSQL, JWT, and AWS (Lambda, RDS, S3).
- Deployed all services via Serverless Framework to AWS Lambda, eliminating server management overhead and enabling on-demand scalability.
- Authored comprehensive Postman test suites covering 100% of exposed API endpoints, ensuring reliability prior to client handoff.

EDUCATION

Bachelor of Science in Computer Science (Hons) Aug 2018 – Aug 2021
University of Technology, Jamaica
