PROFESSIONAL SUMMARY

Full-stack software developer with 4+ years of professional experience designing and delivering backend services, RESTful APIs, and web applications across multiple industries. Proven ability to work across the full development lifecycle—from requirements gathering and architecture to deployment and debugging—using Java, JavaScript, Python, and cloud technologies. Comfortable in Agile environments and experienced working directly with stakeholders to deliver reliable, scalable solutions.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, PHP, SQL, HTML5, CSS

Frameworks & Libraries: Spring Boot, React.js, Express.js, Laravel, Flutter

Cloud & DevOps: AWS (Lambda, RDS, S3), Serverless Framework, Git, Linux

Tools & Platforms: Postman, JWT, Jira, Slack, PostgreSQL, Oracle

Practices: RESTful API Design, Agile/Scrum, Unit Testing, Application Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Software Developer | *Matrix Island Insights — Contract* Dec 2024 – Feb 2026

- Migrated a legacy database to a modernized application using Java and PostgreSQL, ensuring data accuracy and system reliability throughout the transition.
- Designed and implemented backend services to meet functional and performance requirements across client projects.
- Collaborated with stakeholders to analyze existing workflows, evaluate technical options, and recommend improvements for data integrity and application efficiency.
- Performed end-to-end testing and debugging to ensure smooth integration of migrated data and newly deployed services.

Full Stack Web Developer | *Shift Left Ltd. — Full-time* Dec 2021 – Dec 2024

- Built and maintained RESTful web services using Java 8, Spring Boot, Oracle, and PostgreSQL, supporting full CRUD operations across exposed resources.
- Developed responsive, user-friendly front-end interfaces using HTML5, CSS, JavaScript, and React.js for multiple web applications.
- Refactored and improved frontend and backend codebases to resolve bugs, reduce technical debt, and improve maintainability.
- Conducted functional and non-functional testing throughout the development lifecycle to validate applications against pre-defined requirements.

Backend Developer | *ZRise — Part-time Contract* Sep 2023 – Dec 2023

- Architected and built the backend system for a new application from the ground up, including RESTful API design and data modeling.
- Implemented backend services using Express.js, PostgreSQL, JWT authentication, and AWS (Lambda, RDS, S3) to provide secure, scalable client access.
- Authored unit test suites for all exposed API endpoints using Postman to ensure reliability and correctness.
- Deployed backend services via the Serverless Framework to AWS Lambda, reducing infrastructure overhead and improving scalability.

EDUCATION

Bachelor of Science in Computer Science (Hons) Aug 2018 – Aug 2021

University of Technology, Jamaica
